Prince Sultan Bin Abdulaziz College for EMS

AMLS

Advanced Medical Life Support

AMLS (Advanced Medical Life Support) is the gold standard of education for emergency medical assessment and treatment. This is the first EMS education program that fully addresses how to best assess and manage the most common medical crises in patients, offering a “think outside the box” training methodology. It is for all level of practitioners with a strong commitment to patient care including EMTs, paramedics, nurses, physicians and other allied health professionals
